

## MGS Horticultural Inc. Welcomes Mike Dooley

MGS Horticultural Inc., with offices in Canada and the US, is pleased to announce the addition of their new Seeds Division Manager, Mike Dooley. This addition will strengthen our sales team and our commitment as Syngenta's **exclusive** greenhouse seed distributor in  Canada and the  United States.

Before joining MGS Horticultural Inc, Mike was a product specialist for a Dutch based Greenhouse company. In that capacity, he provided customer support for greenhouse crops in Western Canada, United States and Mexico. Mike also has many years of experience from growing to managing at a few large greenhouse vegetable operations in the United States. He has a wide range of knowledge in the production of greenhouse vegetables that include tomatoes, peppers and cucumber as well as various floral crops. He holds an Agronomy Degree from Colorado State University. Mike continues to reside in Colorado with his wife and three children. Mike still has the itch to grow and he operates a modest greenhouse producing organic crops such as: tomatoes, lettuce, spinach and micro greens.

Please do not hesitate to contact him to discuss your greenhouse vegetable needs.
